DDM provides comprehensive services for the video games industry

Representation

DDM represents talented development studios around the globe that create great games on every platform. With its worldwide business development team and deep industry relationships, DDM secures full game deals and co-development projects for its clients. Always with a personal touch, DDM has secured hundreds of deals and deeply understands how to run extensive business development in an efficient and effective manner.

We secure the project deals to achieve your company's goals.

Consulting

DDM provides best-of-class consulting to help companies succeed in their games industry initiatives. Whether entering the games space, expanding on an existing endeavor, or undertaking a new project that can benefit from interactive technologies, DDM partners with you to build and execute upon a tailored strategy. With a network of consulting executives, development studios, production services experts and publishing capabilities, plus DDM's own internal extensive expertise and research department, DDM can tackle any games industry project you've got.

Consulting from experts who know the games business. We create action plans that are actually used.

Data & Research

DDM's research team provides our clients with bespoke services based on extensive industry experience, a wealth of data we maintain on a regular basis and the most comprehensive and up-to-date game industry investment database that exists. We leverage our overall company's Representation, Investment and Consulting services to help our clients succeed in their project funding, investments, acquisitions, exits and strategic initiatives. Our team publishes the quarterly DDM Games Investment Review reports which is regularly featured on Forbes, GamesIndustry.biz, VentureBeat and many others.

We provide the data and research to take your company to the next level.

Investment Services

DDM consults as an M&A Broker for companies in the game industry looking to secure a buyer as well as those looking to source acquisition targets. Our extensive knowledge of the games industry and worldwide business development capabilities are combined with deep financial expertise and rich investment data. Whether you are seeking partial investment or full acquisition, we globally source business prospects that match your strategy and criteria.

We secure the investment or M&A required for you to take your next major strategic step.

- Top Tech/Other Investment Transactions 2013 – 2023
- Top Tech/Other M&A Transactions 2013 – 2023

100. Methodology

Digital Development Management maintains and continuously updates the only source of investment, acquisition, and merger data specific to the video game industry that has been gathered and rigorously tracked for over a decade. We focus on Western investments that span development, publishing and technology across PC, console, mobile, browser, mass community (MMO, MOBA, battle royale), eSports and AR/VR games. In short, our focus is fully on the games industry, where other reporting organizations include non-games technology investments and acquisitions by companies such as Apple and Microsoft, which overshadow and obfuscate what is happening in games.

Methodology

In reporting our values, we only include deals that the investment or acquisition closes, not simply announced. This methodology has been used consistently with our data for 14 years and it ensures that we are measuring actual activity instead of potential activity.

Additionally, with SPACs we consider the investment value to be what was raised in the transaction, not the company valuation afterward. This is consistent with how we track investment data, where we track the money raised in the transaction and, separately, its effect on the company's overall enterprise value.

The exclusion of announced deals may result in a large difference between our quarterly total and other firms, but our methodology gives a clearer picture of the money deployed in the last quarter, providing valuable data consistency for companies evaluating game industry investment and acquisitions. Keep an eye on our reporting to see the accounting of completed deals and you'll know if and when our industry achieves amazing landmarks.
